Select and Protect Your PIN

Scotiabank's Customer Selected PIN Service

- With your Scotiabank VISA card and a Personal Identification Number (PIN), you can enter your PIN to validate transactions at enabled point of sale terminals, or obtain cash advances at any Scotiabank ABM in Canada. Cash advances can also be obtained at over 1 million designated ABMs worldwide displaying one or more of the following symbols: In Canada, look for the *Interac* symbol; outside Canada, look for banking machines displaying the VISA* or PLUS* symbols.
- To get a PIN, simply visit any Scotiabank branch in Canada with your Scotiabank VISA card and identification to select your confidential 4 digit code.
- Once selected, you'll never need to re-select a PIN for your re-issue or replacement cards.

How A Cardholder Can Protect Their PIN:

- DO NOT pick a PIN which is too familiar, easily identified, can be guessed by someone else or can be found in your wallet, like your name, "1234", your birthdate, your license plate number or your telephone number.
- DO NOT write your PIN down or tell anyone what it is. As long as you keep your PIN confidential, only you will be able to use it. If you suspect that someone else knows your PIN, you should change it immediately.
- Use your hand or body to shield your PIN when you are conducting transactions at point of sale terminals or at ABMs.
